

## Validation Data Sheet

# Microbial DNA dPCR Assay

Microbial DNA dPCR Assay	<i>Actinobaculum schaalii</i>
Assay Catalog No.	DMA00741
Description	Bacterial detection assay targeting the <i>gyrB</i> gene
dPCR Master Mix	QIAcuity® Probe PCR Master Mix
Experimental Sample(s)	Synthetic DNA template

**Figure 1. DNA Detection Analysis:** Template dilution factor (1, 10, 100, and 1000). Linearity ( $R^2$ ).

**Figure 2. 1D Scatter Plot.** Single-well data with autothresholding (representative well of technical replicates) for the different experimental sample input amounts (Log 1, Log 2, Log 3) and depicted 2 replicates for Log 4 and NTC. Green channel for FAM detection.
